Taking care of one's dental health is a long term journey. Over time, the entire team at Dr. Fong's office has worked with me to come up with an effective, ongoing treatment plan that makes sense, is affordable, and charts progress. I've been going to Dr. Fong's office for over two years now, and my teeth and gums are remarkably

improved. I feel great about it, and I'm really happy with the results. Dr. Fong and his staff are warm, helpful, and patient. I highly recommend Dr. Fong and his team for meeting your dental health needs in San Francisco.

Seeing Dr. Fong has been comforting and confidence boosting for me. I had terrible past experiences with several dental offices that have made me mistrust medical professionals with my care . Dr. Fong is exceptional. He is a true professional that delivers high quality dentistry. I am grateful to have been referred to his office. He not

only provided me excellent treatment but makes me feel comfortable and right at home. My gums are healing and teeth feel wonderful. I look am actually looking forward to visiting his office for my appointments. This is something I wasn't able to ever do growing up. I used to avoid the dentist at all cost.

I guess the fact I come from Santa Clara county to get my care speaks for itself. They are worth the trip.

My hygienist for this visit seems to new to the team and I think she was a little nervous. She didn't measure the pockets on my upper teeth on the outside -- she went all round the inside and then went back around on the inside! We probably won't want to do the comparison of visits next time, based on that! But she was very sweet and her measurement of the pockets seemed a lot less "invasive"/uncomfortable than usual.

possible discomfort of dental treatment, I feel that Diane is caring and compassionate in her treatment of me.

I very much enjoyed and appreciated this superior level of professionalism on my first visit. I was made to feel comfortable in light of foreboding circumstances. I was explained in detail and to my understanding, the issues involved and potential benefits and/or consequences of the work required. I was referred to and just got back from Dr. Robert S. Koshiyama and I cannot express my gratitude to being sent to such a specialist; so far I'm feeling it was quite a treat to have him work on and re-do my root canal. I feel I can now give up my wondering ways as regards my pearly whites. Thank you so much.

Excellent as usual. I have been a patient of Dr Fong for many years. I come up to San Francisco from Silicon Valley because I have always had the best care from Ken and Diane. I wouldn't even consider switching providers. If you're looking for excellent dental care, look no further than this office.

Always a pleasure to visit Dr. Fong's! All the staff are totally committed to great service. All of my dental hygienists have taken effort to get to know me and what's going on in my life, do a thorough and exemplary cleaning and demonstrate proper brushing and flossing. Dr. Fong always takes time to get to know what's going on in my life and my health. He uses the latest in dental technology, and always considers my insurance needs whenever recommending a procedure (he's even been cautious about filling a cavity, to wait and see if the progress improved and then to also help me make sure I could be fully covered by my insurance). I never hesitate to recommend Dr. Fong and his team!

I have a family history of plaque building under my gums. Ken finally convinced me to try a liquid to loosen things up. It works. I still accumulate plaque, but not like the old days (May 2013). My plaque is gooshy now. I told my neighbor about my breakthrough. I even suggested buying some dental tools to pry the goop out safely and comfortably in the family bathroom. Instead he decided to practice dental techniques on his cat. The cat will never be the same, but at least he/she/it doesn't have plaque anymore. The owner, sadly, lost two things ... his left thumb and the love he had for his cat.

This last visit was with Diane. My gums are swollen and she was very careful to not hurt me. She gave me great advice. She took her time. Oh, that's another thing I want to mention. I have never felt rushed at my appointments. Joanna does an excellent job at the front desk which is probably one of the most challenging positions there. Even if I lived 100 miles away, I would continue with you. Thank you for everything.

Every aspect of the appointment/experience was, as usual, head and shoulders above all other dental/doctor "experiences" I've had. Very professional, friendly, "personal". While I'm not equipped to knowledgeably/objectively evaluate the actual "quality of care" by Dr. Fong, (I'm not a dentist, nor have I ever sought multiple opinions on a single issue) I have total confidence in him and BELIEVE his skills as a dental practitioner are outstanding. Finally, I couldn't be more pleased with his approach, and patient communication/relationship are excellent. I have the feeling of being a partner in my dental care, and that Dr. Fong is executing against a long term plan that absolutely took my input into account. I only wish my mouth was in a better state than a truck wreck--but that's my fault.

I had great first visit with Dr. Fong and his friendly and capable staff. Right from the start with a cup of tea and some relaxing moments in a massage chair I felt at ease with the nurturing atmosphere, sincere care and attention that continued all the way through my initial visit. No "clinical feel" here at this office. Patricia was skillful, knowledgeable and friendly as she took my initial set of x-rays. She was both delicate and dexterous, taking great care to make sure that the x-ray plates did not pinch or cause discomfort. Dr. Fong's evaluation was almost like discussing your teeth with a long-time friend. He is one of those personalities that is likable from the moment you meet him. Extremely knowledgeable yet super friendly and approachable, with an obvious passion for his practice and devotion to and respect for his patients. He really took the time to describe in detail what he was seeing in the x-rays and photos. So much so, that I felt I was his only patient that afternoon! How many people can say that they are looking forward to their next dental appointment!? And yet, that's actually how I feel. What a concept! Pass it on.....

Was fine, but the person who worked on my teeth did not take their time. A dentist should never focus on fixing teeth in a timely fashion....other wise, the dentist is pretty much not doing it's job. If your working on someone's teeth, even if it's a cleaning, take your time, so that the customer knows that you are working thoroughly in a respectful manner. This is not dedicated to the one who worked on my teeth.

Dr. Fong and Dianne have been taking care of my teeth for 23 years, since the beginning of his practice in SF. I have been extremely pleased with Dr. Fong's work as he is an engineer of the mouth and face! He has improved my looks by fixing my teeth. I love his individual attention and interest in making my teeth the very best they can be. I have driven up from Los Angeles to see Dr. Fong. My daughter, Jaime feels the same way. She has had a lot of problems with her teeth and will always be a patient of his. Dr. Fong is kind and caring. I have recommended him to friends and everyone is pleased. Dr. Fong specializes in making your experience the best it can be given you are in a Dentist chair! Dr. Fong will research any situation regarding the right procedure for your teeth and explain in detail what his plans are and how he will orchestrate the work needed, always striving for perfection. He has succeeded in making me very happy with all the work he has performed on my mouth. Everyone in the office has been wonderful with great care taken to make one feel comfortable and safe. I will continue to have Dr. Fong care for my teeth always. I will continue to refer people to Dr. Fong and his staff. He is the best dentist I have ever had and I have had a lot of work done in my mouth. Thank you Dr. Fong.

Everyone knows I'm dental-phobic. I almost need to be put into a coma when sharp things hover over my mouth. After years of visits and enough nitrous oxide to calm a charging rhino, I actually said "no" to the gas. While I wasn't a happy camper, I realized that I could endure a cleaning without biting the hand in my mouth. Its a win-win for everyone.

Many years ago (on hearing my lament a about finding a good dentist), a friend asked me: "Do you want the best dentist in the world?" and at my "Yes!" introduced me to the Dr. Fong and his dental team. I agree! They are outstanding professionals as well as warm, friendly people. They maintain the highest quality of work in an inviting environment with extremely high standards for themselves and any referrals they suggest. The Best!

Dr. Fong is an excellent dentist with a welcoming and relaxing practice. Dr. Fong is a very genuine and warm person. Dr. Fong understands that creating a welcoming and relaxing atmosphere is important to the practice of dentistry. Dr. Fong has an excellent staff. Dr. Fong's wife is one of his hygienists. The rest of the staff is excellent also, including his Dental Assistants and office staff. The office is close knit and has a very family atmosphere. Patients arriving early can relax in either of a pair of iJoy Massage Chair. Dr. Fong is continually involved in process improvement: in the advancements in dental procedures, patient comfort, and office procedures. In a nutshell, Dr. Fong makes visiting the dentist something to look forward to doing with pleasure, rather than something to avoid.

This is the best dental practice I've been to, after having been to several other practices over the the last few years both on the east coast and here in SF. The staff is friendly and helpful, they're wonderful with reminders about appointments, and often they will call after an appointment to check in and make sure everything is OK (no other practice I've been to has ever done this). They take the time out to make sure that patients use good technique in brushing and flossing, and it was at 40 years

old that I first learned that i was using way too much pressure when brushing my teeth! Otherwise, I can say that the dental work itself has been excellent. I've had many deep cleanings before that accomplished nothing in terms of reversing the progression of gum disease. But in just one year of going to Dr. Fong's practice, there has been marked improvement in the gaps between my gums and teeth. I couldn't recommend this practice more, and that's after having had of benefit of comparing to the other dental practices I've used over the years.

the quality of the service was good, but I lay in a chair for over an hour while Dr. Fong went in and out, spending a total of 10-15 minutes working on my tooth or checking on the work of his assistant. His assistant spent about 20 minutes working on my tooth. It was highly inefficient and a waste of my time.

Dr. Fung, his wife Diane and his staff make me feel safe about going to the dentist. And I hate going to the dentist! Dr. Fung takes the time to explain my needs and answers any questions I have. I never have to wait because they never over book. When I'm there I know he & his staff is focused on my dental needs. If you have to go to a dentist, and we all do sometimes- they're the best.

Dr. Fong is always aware of the newest technology. This translates into high-end competency. I can presume that I am getting cutting edge care as a result. The entire staff is warm-hearted, easy to approach, and insures that every patient is taken care of well. This is the best dentist I have ever worked with.

As the long-suffering folks at Dr. Fong's office know, I have an almost pathological fear of sharp things jammed into my mouth. Entering the spotless room of computers, lights, a NASA-like chair and tray with an array of sharp tools, my blood pressure rises. I start to nervously chat about everything under the sun: The number of silver cars parked on the street below, the new panhandler on the corner and the relative health of Dr. Schrodinger's cat. But I always survive the ordeal. I leave wondering how they all can endure one of my visits. Maybe they all meditate before I arrive. Maybe I should try that.

You can trust and appreciate Ken and Diane not only for the immediate experience -- technical skill, gentle hands, friendly atmosphere -- but also for their proven strategic approach to managing dental care. Their goal, for you to keep your teeth healthy for life, has played out well for my husband and I for over 15 years. They don't push work

you don't need or do work that will need to be redone later. Thanks to them we look forward to retirement without the costly dental concerns that we could have had - and that's priceless.

The technician was very polite and thoughtful, but the procedure was surprisingly painful. Not excruciating, but during past planings I've never felt anything at all. I realize that, because I have multiple sclerosis, the difference this time may reflect some change in my nervous system making my mouth more sensitive. But I also spat out a large blood clot after brushing and flossing the night after the procedure. I don't recall having any bleeding or losing clots after other planings. I continued to find small strings of blood after brushing and to have bloody drool on my pillow for the next two nights. Don't know if all this means my gums were in particularly bad shape or what. Which is why I thought I should report my experience.

Dr Kenneth Fong and Mrs. Diane fong are kind, skilled, and gentle with patients. They are also well-informed, clear-spoken and up-front. I always feel like I'm in such good hands at Kenneth Fong, DDS. They're thorough, professional, current in their medical technology. But those are just the basics. What's kept me coming back (since the practice started (in 94?) is Ken himself, a friendly, easy person to communicate with, and a smart, knowledgeable dentist. And maybe more important to me, since I spend more time with my hygienist than the dentist, is Diane Fong. I don't know how she manages to make a cleaning such a good time!

WE INITIALLY RECEIVED RESTORATIVE CARE TO ENSURE LONGEVITY OF FILLINGS AND BRIDGES, AND THEN ROUTINE CARE SINCE. THE OFFICE, STYLE AND TECHNIQUES ARE GENTLE, RELAXED AND MODERN, BELYING THE PASSION, YEARS OF EXPERIENCE, PRECISION AND LATEST TECHNOLOGY THEY HAVE. AS WE HEAD INTO OUR FIXED-INCOME "GOLDEN" YEARS, WE HAVE BECOME LIVING PROOF OF KEN'S (AND HIS FATHER'S BEFORE HIM) PHILOSOPHY OF PROVIDING EARLY CARE WITH AN EYE TOWARD MAXIMUM LONG TERM DENTAL HEALTH. IF YOU HAVE BEEN LOOKING FOR THIS KIND OF CARE, GO SEE KEN. WE FRANKLY COULDN'T RECOMMEND HIM MORE HIGHLY.
